601-V

Voltage Detector

Description

The 601-V is a Voltage Detector. It can detect whether the target device is powered. And use this information as the trigger to link other devices.

Main Features

- ZigBee 3.0
- Voltage detection
- As the trigger to link other devices
- Easy installation by simply inserting the voltage detector into the existing power line

Main Specifications

Wireless Connectivity	
ZigBee	• 2.4GHz IEEE 802.15.4
ZigBee Profile	• ZigBee 3.0
RF Characteristics	• Operating frequency: 2.4GHz • Range outdoor/indoor: 100m / 30m • Internal PCB Antenna
Physical Specifications	
Operating Voltage	• 100~240 Vac 50/60 Hz
Voltage detection range	• 100~240 Vac 50/60 Hz
Operating environment	• Temperature: -20 °C ~+55 °C • Humidity: ≤ 90% non-condensing
Dimension	• 55.3 (L) × 39(W) ×17.7(H) mm
